

ADJUSTABLE BOLTED SHELVING

Dexion is synonymous with slotted angle products. And no wonder. It's the product that launched one of the worlds biggest and best-established storage brands. For more than 50 years, Dexion Slotted Angle has been first-choice for countless projects, from test rigs, industrial shelving, benches, display cabinets, safety screens, movie sets to access platforms, fire barriers, security cages and towers.

Dexion Slotted Angle is quickly and easily cut to size and bolted together to form frameworks which can be readily modified or completely dismantled and the components re-used, the perfect construction kit for all applications.

If you need a simple system for your store room, warehouse, garage, tool shed, van or mobile bench, Dexion angle is the solution

Dexion Angle

Dexion Slotted Angle provides simple cost effective solutions to many storage problems. The system is based on perforated angle sections which can be bolted together to form sturdy shelving structures to suit wide and varied applications. Dexion Angle Uprights are available in three gauges and in a variety of stock lengths.
